That bad smell in Bridgeway

Editor's note:

It's that time of year again. Some residents in Southport, particularly around Bridgeway Island, Bridgeway Lakes and other areas with nearby waterways, are complaining of a foul odor in their neighborhood. We've recently received some complaints and some questions about the smell.

To answer the question, we will reprint below a News-Ledger article on the same subject published exactly last October. Hold your nose, and you'll soon get through this. . . at least until next year!

Some residents of Southport have noticed a "sewage" smell in their neighborhoods during the

past few weeks. It's a real phenomenon, and a natural one, said city spokesperson Art Schroeder.

"The problem/condition seems to happen about this time every year; typically in late summer/early fall," according to a report from the public works department provided by Schroeder. "Hot days, coupled with relatively cool nights create convection currents in the lakes or other bodies of water. These water bodies characteristically contain decaying organic matter which the currents stir up, releasing methane gas. . . and it just smells awful — sulfur, rotten eggs, etc."

Senior citizen sent to jail for accident in store parking lot

■ McClure had no license and had been warned not to drive. With her in the car that day was a licensed driver who could have taken the wheel

A 78-year old West Sacramento woman has been sentenced to a year in county jail plus \$26,000 in restitution to the family of a woman she killed in a supermarket parking lot accident one morning in 2009.

Donna Marie McClure had been found guilty of vehicular manslaughter with gross negligence.

According to Jonathan Raven, chief deputy district attorney for Yolo County, the accident occurred on the morning of Oct. 1, 2009, in front of the Raley's store in West Sacramento. Victim Jewell Mattos walked out of the store and "was halfway through the crosswalk when

(McClure) ran into her with her car."

"Ms. McClure failed to stop until Ms. Mattos was carried 20 to 30 feet. Ms. Mattos suffered serious injuries and died the following day at U.C. Davis Medical Center."

McClure "had more than adequate opportunity to brake," and nothing obstructed her view as a driver, said the D.A.

But prosecutor Ryan Couzens argued that McClure had been grossly negligent because she had suffered "lapses in consciousness, judgment and attention caused by chronic alcoholism." The warnings came from both McClure's doctor and the Department of Motor Vehicles.

McClure was driving on a suspended license at the time of the accident — although in the car with her was a friend who was a licensed driver.

According to the D.A.'s office, McClure said she "had too much pride" to ask her friends to driver her.

As part of the sentence, McClure will also serve five years of felony probation.

Clarification

Last week, the News-Ledger wrote about RCHS teacher and coach Arturo Bustamante, who was accused by a female student of inappropriately touching her.

The article noted that Bustamante was on paid administrative leave and that no disciplinary action

had been taken by the district, pending its investigation.

The article's headline, though, said he had been "suspended." The school district only uses that term for a type of disciplinary action -- which was not the case here.

'Extremely good news'

WUSD board president will report on district's progress

By Steve Marschke
News-Ledger Editor

Local school district officials believe they're riding a wave of success, and that feeling will likely be celebrated in Tuesday's first-ever "State of the District" dinner and address.

The keynote speech will come from Dave Westin, president of the board of trustees for Washington Unified. He promises "extremely good news" in his address. Westin has been pushing for administrators to find a way to increase student test scores across WUSD campuses, and the district recently learned it posted its second consecutive year of 20-plus point gains in API testing.

"I expect to discuss the state of the district and of the individual school sites, and what they have achieved," he told the News-Ledger.

Westin added that he expects to propose new initia-

DAVID WESTIN
President,
WUSD school board

tives for the coming year — but he wasn't quite ready to discuss those in a recent interview.

How, in the board president's view, did WUSD accomplish its test score gains?

"Principally, by running it like a business and holding people accountable," he said.

"We've set specific goals and objectives. We are mandating that every employee in the district be properly evaluated."

Employees weren't consistently rated and graded in the past, said Westin.

"We've had administrators spend more time observing education in the classroom and providing feedback to teachers, and also engaging more with parents," he added.

The board president also credits some of his "initia-

tives," such as one designed to empower parents in their children's education. School superintendent Dayton Gilleland said the district has had the highest two-year API gains of any of the 32 "comparably sized" districts in California, and he credits the previous WUSD administration as having done a lot of the "heavy lifting" for those gains.

"I think teachers are working very hard to work

collaboratively with the assessment tests," said Gilleland. "Teachers are working together to determine strategy. We're testing more along the way (not just once a year). That gives us more of an idea on how to fill in the gaps."

"We're more strategic in what we teach, and more responsive in terms of catching (students) up when something is missed."

Is this "teaching to the test"? In concentrating on standardized tests causing anything, such as essay writing, to be left behind in this kind of education?

"That might be one of the things," said Gilleland. "The teachers would tell you the downside is that we have a very scripted curriculum. There's a great emphasis on math, English and language arts."

Tuesday's event is priced at \$25 and will be held at River City High, but reservations were due by Oct. 14.

Another mile

West Sac officials celebrate riverfront path extension that helps lay the groundwork for urban renewal

The City of West Sacramento has opened a new recreational walkway, the River Walk Trail, along the picturesque riverfront south of the Tower Bridge, parallel to the Sacramento River. The paved trail, nearly one mile in length, creates a "front door" to the City's new Bridge District development now under construction. (Info courtesy of ART SCHROEDER, City of West Sacramento)

RIGHT: Visitors stroll on the fresh pavement of the River Walk trail. Nearly a mile of the trail opened officially on Wednesday. (News-Ledger/ERIC HARDING photo)

ABOVE: Ribbon cutting for the new River Walk Trail. Pictured, left to right, Central Valley Flood Protection Board Executive Officer Jay Punia, Councilman Chris Ledesma, Mayor Christopher Cabaldon, California Natural Resources Agency Deputy Assistant Director Bryan Cash, Councilmember Mark Johannessen (News-Ledger/Eric Harding)

LEFT: Rendering of the future 'Bridge District.' The neighborhood is seen as becoming a dense, urban, people-friendly space that celebrates the river — and has the "River Walk Trail" at left along the Sacramento River. Shown are Raley Field, Tower Bridge, and the I St. Bridge.

Stuff every man ought to know about women

Awhile back I ran across a very thoughtful and informative article penned by a lady named Lisa Jones entitled, "45 Things She Wishes He Knew; Universal truths that all men should, but don't, understand."

Among the 45 things Ms. Jones believes men should understand about women, and don't, were the following, which I have taken the liberty to paraphrase:

#1: Saying 'I love you' immediately before, during, or following sex doesn't count.

#7: "Fine" is never the appropriate response when a woman asks a man how she looks.

#9: Women are terrified of becoming their mother.

#15: Although a woman may say that everything is cool after a man has done something bad, she doesn't really mean it.

#18: When a woman compares her less than flat stomach to a kangaroo pouch, a man should never agree, but rather just say nothing.

#24: Women are very impressed when men ask for advice.

#27: Women think men are very sexy when they're shaving, fixing things, wearing a white t-shirt and jeans, driving, eating a peach, and holding a baby.

#29: Surprise gifts that don't have anything to do with birthdays or holidays win men lots of extra points.

#44: When it comes to relationships, women remember everything!

Well, as you can see, Ms. Jones is a very bright and wise woman, and her wonderful article covered just about everything there is to know in terms of what a man should know about a woman and usually doesn't. However, I think there may be a couple of others which I feel she may have accidentally omitted, so I have made up a rather lengthy list of my own, and for what it's worth, here are just a half-dozen or so of them:

1. Although a man can go with his wife to purchase new furniture for their home (he should even pay for the furniture and come up with a truck to transport everything), under absolutely no circumstance should he ever offer any opinion or advice whatsoever about where the new furniture (the same rule applies to paintings and photographs) should actually be placed in the house. And doing so can lead to some of the biggest fights in your marriage!

My Back Pages

By Daryl Fisher

2. Before offering to marry a woman, a man should get her as angry as humanly possible (there's all kinds of effective ways to do this, but recalling how hopelessly in love you once were with another woman usually seems to do the trick) so you can closely observe her reaction. This way a man will know if he is going to go through life receiving the silent treatment when he screws up, or if his wife-to-be is prone to throwing things and producing unhealthy decibel levels when she is screaming.

3. Before walking down the aisle, men should try very hard to ascertain with some certainty if there will ever be any place whatsoever in the house that could possibly be considered "his turf", accepting of course the fact that the office, kitchen, library, all the closets, bedrooms and bathrooms will basically belong to his spouse and the children.

4. Over the centuries, through no real fault of men, women have somehow got stuck with all the fun stuff, like grocery shopping and cooking the meals, both of which apparently get to be pretty much a pain in the butt as the years wear on. So, a man should never ask a woman, "Hey, what's for dinner tonight, Honey?" unless he is prepared to have shouted at him, "Food!"

5. Under no circumstances should a man ever try to discourage a woman from going shopping for clothes, especially if she is planning on doing so with a group of her friends. Women have apparently

undergone years and years of very intensive and complicated training in this area and have it down to a fine art by the time they get married. So, the only words a man should ever utter to a woman before she leaves on a shopping spree are, "Have fun, Dear," and the only words that should come out of his mouth when she returns home are, "Now doesn't that (dress, shoes, purse, jewelry, outfit, or whatever the case may be) look lovely!"

6. And finally (only because I'm running out of room), one of the most important things men should know about women (and never really do before it's much too late) is that the vast majority of them have this almost pathological need to be (and stay) moist, and that the task of trying to keep their lips, face, hands, arms, legs and feet in that condition goes on almost continuously throughout the course of the day and night. And to that end, hundreds of yucky products (each with its own uniquely offensive odor) are always being purchased, with the major application process usually

Before offering to marry a woman, a man should get her as angry as humanly possible so he can closely observe her reaction.

beginning just before bedtime, creating the reality that a woman never really feels moist enough until a man's lips will slide right off hers, and she can effortlessly squirm out of his grip.

'ACROSS THE BRIDGE':

Events around the region —

Folk dancing

The International Folk Dance and Arts Council will be holding beginning folk dance classes every Thursday night from 7-8:30 pm at YLI Hall, 1400 27th Street in North Sacramento. The cost is \$5 per class or \$25 for 6 classes. You can put some fun and movement in your life by dancing to the music of the world. No partner is needed. For more information call 923-1555 or 371-4441.

SCC concert

The Sacramento City College Choral Department, under the direction of Doreen Irwin, will present its Fall Pops Concert on November 3 at 12:10 pm and

again on November 4 at 8 pm in room A27 of the Auditorium Building on the SCC campus. The first concert is free, and admission for the second concert is \$5. The SCC campus is located at 3835 Freeport Boulevard in Sacramento. For more information call 558-2496.

Tall ship

The tall ship Hawaiian Chieftain will arrive in Sacramento on October 13th for its annual visit. It will be here for a month and focus on helping young people better understand the amazing maritime history of California and the West Coast. The two-masted sailing ship is scheduled to

tie up in Old Sacramento on Front and L Streets and will host K-12 school groups, as well as home-school programs, service organizations, senior citizens and church groups. The ship will also be open to tours by the general public with a \$3 per person donation. Visiting hours are 4-5 pm Tuesday through Friday, and 10 am to 1 pm on the weekends.

See BRIDGE, p. 5

Locals in uniform —

Navy Seaman Recruit Ryan Rackley, son of Shannon Macias of West Sacramento and Scott Rackley of Elk Grove, recently completed U.S. Navy basic training at Recruit Training Command, Great Lakes, Ill. During the 8-week program Rackley completed a variety of training which included classroom study and practical instruction in naval customs, first aid, firefighting, water safety and survival, and shipboard and aircraft safety. An emphasis was also placed on physical fitness.

Rackley is a 2011 graduate of West Sacramento's River City High School

Police log

Information for this 'Police Log' has come directly from original police reports and documents. It's just a sampling of the reports, calls for service and arrests made by the West Sacramento Police Department during the past week. The information includes citizen complaints and other statements that have not substantiated or verified by an investigation or a courtroom.

Oct. 17, 2 a.m.

A trailer caught fire on the 2200-block of West Capitol. Circumstances were "suspicious."

Oct. 17, 12:35 p.m.

A Virginia Avenue resident reported the home had been burglarized.

Oct. 17, 5:31 p.m.

A woman on Higgins Road told police that she had checked her bank account, and found that that it had been charged for services from a movie/DVD rental company – for which she had no account.

Oct. 18, 9:30 a.m.

On 3rd Street, an office took possession of a "found" envelope containing about 32 grams of a "green leafy

substance." It was booked for destruction.

Oct. 18, 12:57 a.m.

Flames were reported near the railroad tracks at Sacramento Avenue and 8th. It was possibly from a campfire tended by transients.

Oct. 18, 12:52 p.m.

A witness said a gray Jeep had crashed into a tree near Reed and Stillwater. Injuries were unknown, but occupants were seen getting out of the crashed vehicle.

Oct. 18, 2:22 p.m.

A woman reported that a man in a white car had tried to sell jewelry to her in the parking lot of a Merkley Avenue bank. The man was now gone.

Oct. 18, 5 p.m.

A 49-year old male transient walked into a cigarette store on West Capitol Avenue, approached the counter, then stole some merchandise and fled. He was located by police the next day, and arrested.

Oct. 18, 1:45 p.m.

A 46-year old man reported that he had parked

a truck at Holland Drive and Marston Avenue. While it was there, somebody stole a water heater out of the back.

Oct. 18, 10:37 p.m.

Police received several complaints about a 19-year old man "jumping in front of vehicles on Sacramento Avenue." They responded, and arrested him for being too intoxicated to care for himself.

Oct. 18, 12:44 p.m.

A business at the 500-

block of West Capitol called police to take custody of two bikes that had been apparently abandoned there a couple of days earlier. One bike was a road bike with no front wheel, but with a sleeping bag and pad "bungeed" to the rear rack. The other was a mountain bike.

Oct. 18, 10:05 p.m.

A Grizzly Bay Road man reported that an unknown person had left a BMX bike on his porch. Police

booked it for safekeeping.

Oct. 20, 5:38 a.m.

Loss prevention officers watched as a 30-year old Sacramento woman and another woman took merchandise from inside a store on Riverpoint Court, put it into their purses, and tried to leave. The employees contacted them, but one fled while the other was detained and arrested.

Oct. 19

A Douglas Street man

reported that someone had used his debit card account to buy Tupperware. Twice.

Oct. 20, 1:13 p.m.

A 30-year old man on Ore Street reported that a shipping company had left a package on his porch. But someone stole it before he got home.

Oct. 20

A Harbor Boulevard company said someone took \$130 in cash and two checks without permission.

GUEST COMMENTARY:

Steps toward a green Halloween

From Waste Management, Inc.

This season, Waste Management reminds its

customers to save money and Think Green® by avoiding traditional Halloween routines – that usually result in waste – in

favor of recyclable, eco-friendly habits:

Use the whole pumpkin: Most everyone buys a pumpkin to celebrate the holiday, and we all end up tossing it in the trash in November. However, avoiding that waste is easy by using the pumpkin for both food and decoration. It's easy to bake the seeds with a little bit of salt for a tasty and healthy snack; or, puree the freshly cutout pieces for recipes that call for fresh pumpkin – avoiding canned pumpkin. All other parts of the pumpkin can be added to a compost pile.

Skip the expensive plastic costumes: Put less stress on your wallet by opting for

costumes made of reusable or recycled materials. Incite your family's creativity by constructing a unique, exciting costume from scratch. Sites like TreeHugger (<http://www.treehugger.com>) offer free instructional videos on how to make popular costume ideas for \$10 or less.

Use recyclable bags for your Trick-or-Treaters: A fun family activity is to create a unique Trick-or-Treat basket, or simply put a reusable bag to good use. Avoiding the plastic Jack-O-Lantern type containers will avoid clutter, save money, and add a dash of originality to your Trick-or-Treaters' costume.

GUEST COMMENTARY:

Learn about 'cyber-bullying'

From the Yolo Co. Library

Yolo County Library will host presentations from the UCD Family Protection and Legal Assistance Clinic on anti-cyberbullying at several branch libraries in October and November. The presentations are scheduled as follows:

Tuesday, October 18, 6:30 - 8:00 p.m. Winters Community Library (Apologies for the late notice. If you can post this one online that would be much appreciated)

Wednesday, October 26, 6:30 - 8:00 p.m. Clarksburg Public Library
Wednesday, November 9, 6:30 - 8:00 p.m. Esparto Regional Library
Wednesday, November 16, 6:00 - 7:30 p.m. Mary L. Stephens Davis Branch Library

These presentations will introduce the social and legal consequences of cyberbullying, sexting and sextortion. The program is geared towards parents attending the session either alone or with their children. The presentation is applicable to all ages and is formatted as an informational session with a discussion element to encourage dialogue and present a comfortable opportunity to start an important conversation between parents and their children. From start to finish, the presentation will involve

a multimedia presentation followed by a question and answer session.

20% of teenagers have sent or posted nude or semi-nude pictures or video of themselves; 48% of teenagers say they have received such messages.

Over half of adolescents and teens have been bullied online, and about the same number have engaged in cyber bullying.

More than 1 in 3 young people have experienced cyberthreats online.

Over 25% of adolescents and teens have been bullied repeatedly through their cell phones or the Internet.

The UCD Family Protection and Legal Assistance Clinic will introduce and discuss the issues of cyberbullying, sexting and sextortion – all of which have been gaining attention at alarming rates due to the increasing prevalence of social networking media (i.e. Facebook, texting, Xbox, etc.). These issues have become major concerns at schools and at home as kids have increased access to social technology. The presentation will focus on the rapidly changing laws regarding cyberbullying, sexting and sextortion, and how these laws may affect children, teens, and their parents.

These presentations are free of charge. For more information on Yolo County Library programs, visit: www.yolocountylibrary.org.

Winter smoke watch

The "Spare the Air" season ends this month and "Don't Light Tonight" (DLT) begins November 1.

"With only five Spare the Air days called this year, we are fortunate to have relatively good air quality all year long and encourage voluntary efforts for reducing ozone and particulate pollution whenever possible," stated Mat Ehrhardt, executive director of the Yolo-Solano Air Quality Management District. "Residents can find what the air quality is anytime of the year by either checking the district's website at www.ysaqmd.org or by receiving free electronic notifications through Enviroflash (<http://www.ysaqmd.org>)." Ehrhardt said. An added incentive to sign up for the service

is all subscribers will be eligible to win a rechargeable zero emission lawn mower but must be signed up by Nov. 30.

The District's voluntary 'Don't Light Tonight' (DLT) program is a wintertime program that minimizes the health impacts from wood smoke from wood burning appliances through voluntary compliance to district issued advisories. The District issues an advisory and declares a 'Don't Light Tonight' when particulate pollution (PM 2.5) is forecast to reach or exceed 25 micrograms per cubic meter of air or 75 on the air quality index (AQI). During an advisory, the use of wood-burning devices, including fireplaces, pellet stoves, wood stoves and outdoor fire pits, is discouraged.

A year here

Hayate Yoshida stepped off an airplane into Sacramento International Airport on Sept. 29, ready to start 10th grade as a Japanese exchange student at River City High School. He's being hosted by Bill and Mona Quinterro.

Hayate enjoys playing tennis and soccer, and listening to music, reports Tony Schwall, a member of the Centennial Rotary Club, which is sponsoring his stay. Hayate is from the Hokkaido prefecture, on a northern island of Japan.

Special 'Native American' events in Esparto, Winters

From the Yolo County Library

The Yolo County Library will present two family programs in the month of November, designated as Native American Heritage Month, to celebrate the rich ancestry and cultural traditions of the indigenous

peoples of California.

On Saturday, November 5, 12:00-2:00 p.m., the Esparto Regional Library will host a presentation by UC Davis Native American Studies Graduate Student, Lori Laiwa, on the traditional food of native California, including tastings. When Ms.

Laiwa began transcribing notes on Central Pomo native speakers recorded by the late linguist, J.P. Harrington, she found not only lost pieces of the Pomo language, but a link to her past. In one interview from around 1940, she discovered her grandmother describing the best mussel grounds in

the Fort Bragg area. The first Ph.D. student from her Pomo tribe, Laiwa pursues research to revitalize the language and culture of her grandmother and other ancestors, and shares that knowledge with her community and the world. She will kick off the program and the month-long celebration with

a traditional ceremony. The Esparto Regional Library is located at 17065 Yolo Avenue in Esparto.

On Saturday, November 19, 1:30-3:00 p.m., families are invited to attend a not-to-be-missed performance by California Indian feather dancers, Razzle Dazzle, and the Circle of Nations at the Winters Community Library.

Light refreshments, including traditional Indian frybread, will be served. School-aged children can learn the craft

of beading pine nut bracelets and all materials will be provided. The Winters Community Library is located at 708 Railroad Avenue in Winters.

Branch libraries throughout Yolo County will feature displays of Native American handicrafts and artifacts and provide extensive reading lists of Native American literature and history. All programs are free of charge. For more information, visit the Library's website at www.yolocountylibrary.org

LOCAL from p. 14

5:30 p.m., dinner at 6 p.m. \$25/person. RSVP to Pam Geivett, pgeivett@wusd.k12.ca.us, by Oct. 14. An address by school board president David Westin is expected.

Music, dancing

The West Sacramento Parks and Recreation Department is offering various dance classes, a bluegrass/country jam session, yoga, beginning guitar and more. Call 617-4620.

Coats for Kids

News10 is bringing back its annual "Coats for Kids" program, aiming to collect gently-used coats of all sizes for distribution to needy kids with the help of the Salvation Army. The coat drive will be held from Nov. 1-9. Local businesses are invited to serve as drop-off locations. Visit www.News10.com or call 321-3362.

Yard sale

The TOPS (Take Off Pounds Sensibly) group will host a yard sale fundraiser from 7 a.m. to noon on Sat., Nov. 5, at the corner of Evergreen & Poplar. There will be household goods, furniture and books. Proceeds will help the club go to ceremonies in San Diego.

Visit Clarksburg

The West Sacramento Historical Society plans a field trip to Clarksburg on Sat., Nov. 5. The public is welcome, but please attend the group's planning session at 6:45 p.m. on Thursday, Nov. 3, at the Arthur F. Turner branch library, 1212 Merkley Avenue. Bring your Clarksburg facts & photos.

Kindle compatible

The "eBooks" of the Yolo County Library are now compatible with the Kindle digital book format, reports the library. Patrons can now download titles to read on any Kindle-compatible device. Visit www.yolocountylibrary.org. The library also offers eBooks and audiobooks for use on a PC or Mac computer and various other readers and smartphones.

Recycle electronics

Recycle your old electronics devices and help support the West Sacramento Christmas Basket Project. Between 8 a.m. and 2 p.m. on Nov. 5, visit the Farmers Market site behind Walgreens and drop off your old TVs, computers, printers, scanners, power cables, routers, radios, cell phones, digital cameras, DVD players, phones, toner cartridges, VCRS and other high tech electronics.

Practice English

Adult English conversation groups are scheduled several days a week at the local library, 1212 Merkley Avenue. No charge, and drop-ins are welcome. The groups meet from 1-2 p.m. on Tuesdays, 3-4 p.m. on Wednesdays, 10-11 a.m. on Fridays, and 2-3 p.m. on Sundays. For information, call the information desk, 375-6465. Sponsored by Yolo Reads, the Institute of Museum and Library Services, and the West Sacramento Friends of the Library.

Coats wanted

Lyon Real Estate in West Sacramento is starting up its annual coat drive. Bring a new or gently-used coat to the office at the Southport Town

Center (near Target and Round Table) by Oct. 31, and they will see that it gets to someone who needs it this fall and winter. Coats will go into the "One Warm Coat" program for distribution through regional shelters.

Docents wanted

Yolo County is looking for volunteer docents to staff the public information desk at the county administration building, 625 Court Street in Woodland. For information, contact the Human Resources Department, (530) 666-8055.

Local 6th graders

Sixth graders at Riverbank Elementary School are working hard to raise money for the annual class trip to Sly Park in the El Dorado National Forest. The cost is \$230 per student to stay for four nights, plus transportation. So far, the group has raised \$8,000 of its \$15,000 tab, but the students are looking for more help from the community. If you can help, contact Karrie at 213-6728 or email slyparkpeople@yahoo.com.

Honoring volunteers

The Yolo Community Foundation invites local nonprofits to join in honoring donors and volunteers at Yolo County Philanthropy Day, 5:30-7 p.m. on Nov. 8 in the atrium of the county administration building, 625 Court Street in Woodland. Nominations for awards are due by Nov. 1. Each organization may donate one donor or volunteer. Call Mary Jo Bryan at info@yolocf.org, or call her at (530) 312-0593.

Chamber awards

The West Sacramento Chamber of Commerce plans its annual awards dinner and installation of officers at 5 p.m. on Jan. 19 at the civic center gallery. For more information, visit www.WestSacChamber.com or call 371-7042. The new board chairman will be Eric Flick of Grocery Outlet.

Halloween party

The West Sacramento parks department invites kids up to 14 years old to a "trick or treat" Halloween Party from 5-7 p.m. at River City High School on Sat., Oct. 29. There will be door prizes, jump houses, candy and more. Free!

Halloween at IKEA

The IKEA store in West Sacramento plans two free Hal-

loween events for kids. From 2-4 p.m. on Saturday, Oct. 29, the store will offer a free craft activity (first come, first serve) at 'Smaland.' And kids are invited to "trick or treat" in the store from 5-7 p.m. on Halloween, Oct. 31. Stroll through the store and visit scary spots and pick up treats. Free, and open to kids 3-12.

Singing concert

The West Sacramento Community Singers will offer a free concert at 3 p.m. on Nov. 6 at the local library, 1212 Merkley Ave. Sponsored by the West Sacramento Friends of the Library. The singers are open to "adult singers of all ages and musical ability."

Habitat dinner

The Yolo County chapter of Habitat for Humanity plans an Indian dinner and silent auction fundraiser at 6 p.m. on Sat., Nov. 12, at St. James Catholic Church, 1275 B Street in Davis. The event will support home renovation projects in the Bryte and Broderick neighborhoods of West Sacramento. For information on getting help from the renovation program, or on attending the dinner, visit www.habitatyolo.org.

Free flu shots

The Yolo County Health Department will offer free influenza vaccines at West Sacramento City Hall, 1110 West Capitol Avenue, from 8 a.m. to noon on Sat., Oct. 22. The department will also offer a flu clinic from 10 a.m. to 2 p.m. on Sat., Nov. 5, at the Winters Community Center in Winters. Volunteers are needed for various tasks at the clinics - if you can help, email volunteercoordinator@yolocounty.org. The department also offers flu vaccines for a \$10 fee every Wednesday from 2-5 at its headquarters, 137 N. Cottonwood Street in Woodland, as part of a clinic offering various vaccinations.

Toy drive

The Eskaton Wilson Manor at 2140 Evergreen is collecting new, unwrapped toys for the "Toys for Tots" program during the holidays. Drop off a toy at either Eskaton or at River City High School by November 10, and help put a smile on some child's face. Toys will also be collected at the Veterans Day Parade on Nov. 11 in West Sacramento. For information, call 371-2060 or email Debbie.reynolds@eskaton.org.

THE POVERTY LINE

Nearly 13 million children in America are trapped behind it.

Poverty creates limits that no family deserves. You can make a difference and help them see better futures. Together, we can start to turn things around. Will you help?

Go to www.povertyusa.org and get involved.

Catholic Campaign for Human Development

BRIDGE from page 2

Indian exhibit

The California Museum, located at 1020 O Street in Sacramento, is featuring an exhibit entitled "California Indians: Making a Difference", which will run through the rest of the year. It offers Native Voices through an all-new oral history project along with over 400 artifacts, including rare baskets and a fur cap and arrowhead made by Ishi, California's best-known Indian. The exhibit presents stories of adaptation and triumph that reveal

California Indians have not only survived, but continue to thrive. For more information, call 651-0934.

Widowed persons meet

The Widowed Persons Association of California have a support group that meets each Sunday from 3-5 pm at the WPAC office at 2628 El Camino Avenue, Suite D-18. Any and all widows and widowers are welcome. Participants do not need to be a member and there is no charge. For more information call 972-9722.

ORDINANCE 1111

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF WEST SACRAMENTO ADDING ARTICLE XII TO CHAPTER 13.04 OF THE MUNICIPAL CODE RELATED TO WATER EFFICIENT LANDSCAPING IN COMPLIANCE WITH THE CALIFORNIA WATER CONSERVATION IN LANDSCAPING ACT OF 2006 (AB 1881)

The City Council of the City of West Sacramento does ordain as follows:

Section 1. Purpose and Authority. The California Water Conservation in Landscaping Act of 2006 (AB 1881) mandates that local jurisdictions adopt and enforce the State Model Water Efficient Landscaping ordinance, or adopt and enforce their own Water Efficient Landscaping ordinance as long as it is at least as effective as the State model ordinance.

In the best interest of the City of West Sacramento, the purpose of this Ordinance is to enact a local Water Efficient Landscaping ordinance that is at least as effective as the State model ordinance by adding Article XII to Chapter 13.04 of the City of West Sacramento Municipal Code.

Section 2. Additions. The following sections are added to the West Sacramento Municipal Code to read as follows:

Title 13. Public Services Chapter 13.04. Water Service System Article XII. Water Efficient Landscaping 13.04.1090 Purpose.

The State Legislature has found:

- that the waters of the state are of limited supply and are subject to ever increasing demands;
- that the continuation of California's economic prosperity is dependent on the availability of adequate supplies of water for future uses;
- that it is the policy of the State to promote the conservation and efficient use of water and to prevent the waste of this valuable resource;
- that landscapes are essential to the quality of life in California by providing areas for active and passive recreation and as an enhancement to the environment by cleaning air and water, preventing erosion, offering fire protection, and replacing ecosystems lost to development; and
- that landscape design, installation, maintenance and management can and should be water efficient; and
- that Section 2 of Article X of the California Constitution specifies that the right to use water is limited to the amount reasonably required for the beneficial use to be served and the right does not and shall not extend to waste or unreasonable method of use.

Consistent with these legislative findings, the purpose of this ordinance is to:

- promote the values and benefits of landscapes while recognizing the need to invest water and other resources as efficiently as possible;
- establish a structure for planning, designing, installing, maintaining and managing water efficient landscapes in new construction and rehabilitated projects;
- establish provisions for water management practices and water waste prevention for existing landscapes;
- use water efficiently without waste by setting a Maximum Applied Water Allowance as an upper limit for water use and reduce water use to the lowest practical amount;
- promote the benefits of consistent landscape ordinances with neighboring local and regional agencies;

13.04.1100 Applicability. This ordinance shall apply to all of the following landscape projects:

- new construction and rehabilitated landscapes for public agency projects and private development projects with a landscape area equal to or greater than 2,500 square feet requiring a building or landscape permit, plan check or design review;
- new construction and rehabilitated landscapes which are developer-installed in single-family and multi-family projects with an aggregate landscape area equal to or greater than 2,500 square feet over the entire developed area, requiring a building or landscape permit, plan check, or design review;
- new construction landscapes which are homeowner-provided and/or homeowner-hired in single-family and multi-family residential projects with a total project landscape area equal to or greater than 5,000 square feet requiring a building or landscape permit, plan check or design review;

4. existing landscapes limited to Sections 13.04.1180, and 13.04.1190; and

5. cemeteries. Recognizing the special landscape management needs of cemeteries, new and rehabilitated cemeteries are limited to Sections 13.04.1120.C, 13.04.1130.C, and 13.04.1180; and existing cemeteries are limited to Sections 13.04.1180, and 13.04.1190.

This ordinance does not apply to:

- registered local, state or federal historical sites;
- ecological restoration projects that do not require a permanent irrigation system;
- mined-land reclamation projects that do not require a permanent irrigation system; or
- plant collections, as part of botanical gardens and arboreta open to the public.

13.04.1110 Definitions.

The terms used in this ordinance have the meaning set forth below:

"applied water" means the portion of water supplied by the irrigation system to the landscape.

"automatic irrigation controller" means an automatic timing device used to remotely control valves that operate an irrigation system. Automatic irrigation controllers schedule irrigation events using either evapotranspiration (weather-based) or soil moisture data.

"backflow prevention device" means a safety device used to prevent pollution or contamination of the water supply due to the reverse flow of water from the irrigation system.

"Certificate of Completion" means the document required under Section 13.04.1130.

"certified irrigation designer" means a person certified to design irrigation systems by an accredited academic institution a professional trade organization or other program such as the US Environmental Protection Agency's WaterSense irrigation designer certification program and Irrigation Association's Certified Irrigation Designer program.

"certified landscape irrigation auditor" means a person certified to perform landscape irrigation audits by an accredited academic institution, a professional trade organization or other program such as the US Environmental Protection Agency's WaterSense irrigation auditor certification program and Irrigation Association's Certified Landscape Irrigation Auditor program.

"check valve" or "anti-drain valve" means a valve located under a sprinkler head, or other location in the irrigation system, to hold water in the system to prevent drainage from sprinkler heads when the sprinkler is off.

"common interest developments" means community apartment projects, condominium projects, planned developments, and stock cooperatives per Civil Code Section 1351.

"conversion factor (0.62)" means the number that converts acre-inches per acre per year to gallons per square foot per year

"drip irrigation" means any non-spray low volume irrigation system utilizing emission devices with a flow rate measured in gallons per hour. Low volume irrigation systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

"ecological restoration project" means a project where the site is intentionally altered to establish a defined, indigenous, historic ecosystem.

"effective precipitation" or "usable rainfall" (Eppt) means the portion of total precipitation which becomes available for plant growth. The usable rainfall value shall be estimated as 25% of the average annual rainfall. Average annual rainfall amounts shall be determined by the City of West Sacramento Parks Department, and based on a combination of data from the City's weather stations, and regional California Irrigation Management Information Systems (CIMIS) data.

"emitter" means a drip irrigation emission device that delivers water slowly from the system to the soil.

"established landscape" means the point at which plants in the landscape have developed significant root growth into the soil. Typically, most plants are established after one or two years of growth.

"establishment period of the plants" means the first year after installing the plant in the landscape or the first two years if irrigation will be terminated

after establishment. Typically, most plants are established after one or two years of growth. "Estimated Total Water Use" (ETWU) means the total water used for the landscape as described in Section 13.04.1120.C.

"ET adjustment factor" (ETAF) means a factor of 0.7, that, when applied to reference evapotranspiration, adjusts for plant factors and irrigation efficiency, two major influences upon the amount of water that needs to be applied to the landscape.

A combined plant mix with a site-wide average of 0.5 is the basis of the plant factor portion of this calculation. For purposes of the ETAF, the average irrigation efficiency is 0.71. Therefore, the ET Adjustment Factor is (0.7)=(0.5/0.71). ETAF for a Special Landscape Area shall not exceed 1.0. ETAF for existing non-rehabilitated landscapes is 0.8. "evapotranspiration rate" means the quantity of water evaporated from adjacent soil and other surfaces and transpired by plants during a specified time. See also "reference evapotranspiration".

"flow rate" means the rate at which water flows through pipes, valves and emission devices, measured in gallons per minute, gallons per hour, or cubic feet per second.

"hardscapes" means any durable material (pervious and non-pervious).

"homeowner-provided landscaping" means any landscaping either installed by a private individual for a single family residence or installed by a licensed contractor hired by a homeowner. A homeowner, for purposes of this ordinance, is a person who occupies the dwelling he or she owns. This excludes speculative homes, which are not owner-occupied dwellings.

"hydrozone" means a portion of the landscaped area having plants with similar water needs. A hydrozone may be irrigated or non-irrigated.

"infiltration rate" means the rate of water entry into the soil expressed as a depth of water per unit of time (e.g., inches per hour).

"invasive plant species" means species of plants not historically found in California that spread outside cultivated areas and can damage environmental or economic resources. Invasive species may be regulated by county agricultural agencies as noxious species. "Noxious weeds" means any weed designated by the Weed Control Regulations in the Weed Control Act and identified on a Regional District noxious weed control list. Lists of invasive plants are maintained at the California Invasive Plant Inventory and USDA invasive and noxious weeds database.

"irrigation audit" means an in-depth evaluation of the performance of an irrigation system conducted by a Certified Landscape Irrigation Auditor. An irrigation audit includes, but is not limited to: inspection, system tune-up, system test with distribution uniformity or emission uniformity, reporting overspray or runoff that causes overland flow, and preparation of an irrigation schedule.

"irrigation efficiency" (IE) means the measurement of the amount of water beneficially used divided by the amount of water applied. Irrigation efficiency is derived from measurements and estimates of irrigation system characteristics and management practices. The minimum average irrigation efficiency for purposes of this ordinance is 0.71. Greater irrigation efficiency can be expected from well designed and maintained systems.

"irrigation survey" means an evaluation of an irrigation system that is less detailed than an irrigation audit. An irrigation survey includes, but is not limited to: inspection, system test, and written recommendations to improve performance of the irrigation system.

"irrigation water use analysis" means an analysis of water use data based on meter readings and billing data.

"landscape architect" means a person who holds a license to practice landscape architecture in the state of California Business and Professions Code, Section 5615.

"landscape area" means all the planting areas, turf areas, and water features in a landscape design plan subject to the Maximum Applied Water Allowance calculation. The landscape area does not include footprints of buildings or structures, sidewalks, driveways, parking lots, decks, patios, gravel or stone walks, other pervious or non-pervious hardscapes, and other non-irrigated areas designated for non-development (e.g., open spaces and existing native vegetation).

"landscape contractor" means a person licensed by the state of California to construct, maintain, repair, install, or sub-

contract the development of landscape systems.

"Landscape Documentation Package" means the documents required under Section 13.04.1120.

"landscape project" means total area of landscape in a project as defined in "landscape area" for the purposes of this ordinance, meeting requirements under Section 13.04.1100.

"lateral line" means the water delivery pipeline that supplies water to the emitters or sprinklers from the valve.

"local water purveyor" means any entity, including a public agency, city, county, or private water company that provides retail water service.

"low volume irrigation" means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as drip, drip lines, bubblers, and multi-stream, multi-trajectory rotator sprinklers. Low volume irrigation systems are specifically designed to apply small volumes of water not to exceed 0.75 inches per hour precipitation rate.

"main line" means the pressurized pipeline that delivers water from the water source to the valve or outlet.

"Maximum Applied Water Allowance" (MAWA) means the upper limit of annual applied water for the established landscaped area as specified in Section 13.04.1120.C. It is based upon the area's reference evapotranspiration, the ET Adjustment Factor, and the size of the landscape area. The Estimated Total Water Use shall not exceed the Maximum Applied Water Allowance. Special Landscape Areas, including recreation areas, areas permanently and solely dedicated to edible plants such as orchards and vegetable gardens, and areas irrigated with recycled water are subject to the MAWA with an ETAF not to exceed 1.0.

"microclimate" means the climate of a small, specific area that may contrast with the climate of the overall landscape area due to factors such as wind, sun exposure, plant density, or proximity to reflective surfaces.

"mined-land reclamation projects" means any surface mining operation with a reclamation plan approved in accordance with the Surface Mining and Reclamation Act of 1975.

"mulch" means any organic material such as leaves, bark, straw, compost, or inorganic mineral materials such as rocks, gravel, and decomposed granite left loose and applied to the soil surface for the beneficial purposes of reducing evaporation, suppressing weeds, moderating soil temperature, and preventing soil erosion.

"new construction" means, for the purposes of this ordinance, a new building with a landscape or other new landscape, such as a park, playground, or greenbelt without an associated building.

"operating pressure" means the pressure at which the parts of an irrigation system are designed by the manufacturer to operate.

"overhead sprinkler irrigation systems" means systems that deliver water through the air (e.g., spray heads and rotors).

"overspray" means the irrigation water which is delivered beyond the target area.

"permit" means an authorizing document issued by local agencies for new construction or rehabilitated landscapes.

"pervious" means any surface or material that allows the passage of water through the material and into the underlying soil.

"plant factor" or "plant water use factor" is a factor, when multiplied by ETo, estimates the amount of water needed by plants. For purposes of this ordinance, the plant factor range for low water use plants is 0 to 0.3, the plant factor range for moderate water use plants is 0.4 to 0.6, and the plant factor range for high water use plants is 0.7 to 1.0. Plant factors cited in this ordinance are derived from the Department of Water Resources 2000 publication "Water Use Classification of Landscape Species".

"precipitation rate" means the rate of application of water measured in inches per hour.

"project applicant" means the individual or entity submitting a Landscape Documentation Package required under Section 13.04.1120, to request a permit, plan check, or design review from the City of West Sacramento. A project applicant may be the property owner or his or her designee.

"rain sensor" or "rain sensing shutoff device" means a component which automatically suspends an irrigation event when it rains.

"record drawing" or "as-builts" means a set of reproducible drawings which show significant changes in the work made during construction and which

are usually based on drawings marked up in the field and other data furnished by the contractor.

"recreational area" means areas dedicated to active play such as parks, sports fields, and golf courses where turf provides a playing surface.

"recycled water", "reclaimed water", or "treated sewage effluent water" means treated or recycled waste water of a quality suitable for non-potable uses such as landscape irrigation and water features. This water is not intended for human consumption.

"reference evapotranspiration" or "ETo" means a standard measurement of the rate of evapotranspiration expressed in inches per unit of time. Reference evapotranspiration is used as the basis for determination of the Maximum Applied Water Allowance to accommodate regional differences in climate. The reference evapotranspiration value is determined by the City of West Sacramento Parks Department as a combination of data from the City's weather stations and regional California Irrigation Management Information Systems (CIMIS) data.

"rehabilitated landscape" means any re-landscaping project that requires a permit, plan check, or design review, meets the requirements of Section 13.04.1100, and the modified landscape area is equal to or greater than 2,500 square feet, is 50% of the total landscape area, and the modifications are completed within one year.

"runoff" means water which is not absorbed by the soil or landscape to which it is applied and flows from the landscape area. For example, runoff may result from water that is applied at too great a rate (application rate exceeds infiltration rate) or when there is a slope.

"soil moisture sensing device" or "soil moisture sensor" means a device that measures the amount of water in the soil. The device may also suspend or initiate an irrigation event.

"soil texture" means the classification of soil based on its percentage of sand, silt, and clay.

"Special Landscape Area" (SLA) means an area of the landscape dedicated solely to edible plants, areas irrigated with recycled water, water features using recycled water and areas dedicated to active play such as parks, sports fields, golf courses, and where turf provides a playing surface.

"sprinkler head" means a device which delivers water through a nozzle.

"static water pressure" means the pipeline or municipal water supply pressure when water is not flowing.

"station" means an area served by one valve or by a set of valves that operate simultaneously.

"swing joint" means an irrigation component that provides a flexible, leak-free connection between the emission device and lateral pipeline to allow movement in any direction and to prevent equipment damage.

"turf" means a ground cover surface of mowed grass.

"valve" means a device used to control the flow of water in the irrigation system.

"water conserving plant species" means a plant species identified as having a low plant factor.

"water feature" means a design element where open water performs an aesthetic or recreational function. Water features include ponds, lakes, waterfalls, fountains, artificial streams, spas, and swimming pools (where water is artificially supplied). The surface area of water features is included in the high water use hydrozone of the landscape area. Constructed wetlands used for on-site wastewater treatment or stormwater best management practices that are not irrigated and used solely for water treatment or stormwater retention are not water features and, therefore, are not subject to the water budget calculation.

"watering window" means the time of day irrigation is allowed.

"WUCOLS" means the Water Use Classification of Landscape Species published by the University of California Cooperative Extension, the Department of Water Resources and the Bureau of Reclamation, latest edition.

13.04.1120 Landscape Documentation Package.

A. Process.

Prior to construction, the project applicant shall submit a Landscape Documentation Package (application) to the City of West Sacramento. Such application may be rejected unless it contains the minimum number of copies requested by City staff, of all required items, as noted in Section 13.04.1120.B.

Such application shall also comply with all other City and State ordinances as appropriate including specifically, but not limited to, the City's Landscape Development Guidelines, and Master Tree List. Where this ordinance conflicts with the City's Landscape Development Guidelines or Master Tree List, the most restrictive requirement(s) shall apply.

City staff will review the application (Landscape Documentation) package, and may request additional information from the applicant at any time in order to obtain sufficient information to verify compliance with this ordinance.

If all required components have been submitted, and the package complies with all requirements of this ordinance, the Landscape Documentation package shall be approved by the City, and the applicant will be notified of how to obtain a permit for construction. The applicant shall not commence installation without the proper permit(s).

If City staff determines that the requirements of this ordinance have not been met by the applicant through his/her Landscape Documentation Package and any additional information supplied, the application shall be denied, and the applicant will be notified of the City's determination, as well as the reason for denial. The applicant shall also be informed of re-application and/or appeal procedures, as appropriate.

Upon approval of the Landscape Documentation Package and issuance of the proper permit(s), the project applicant shall:

- Record the date of such permit in the Certificate of Completion;
- Submit a copy of the approved Landscape Documentation Package along with the record drawings, and any other information to the property owner or his/her designee.

B. Elements of a Landscape Documentation Package

The Landscape Documentation Package shall include the following six (6) elements:

- Project Information
- date
- project applicant
- project address (if available, parcel and/or lot number(s))
- total landscape area (square feet)
- project type (e.g., new, rehabilitated, public, private, cemetery, homeowner-installed)
- water supply type (e.g., potable, recycled, well)
- checklist of all documents in Landscape Documentation Package
- project contacts to include contact information for the project applicant and property owner
- applicant signature and date with the statement, "I agree to comply with the requirements of the City of West Sacramento's Water Efficient Landscape Ordinance and submit a complete Landscape Documentation Package".

2. Water Efficient Landscape Worksheet

- hydrozone information table
- water budget calculations
- Maximum Applied Water Allowance (MAWA)
- Estimated Total Water Use (ETWU)
- Soil Analysis/Report
- Landscape Plan
- Irrigation Plan
- Grading Plan

C. Water Efficient Landscape Worksheet.

A project applicant shall complete the Water Efficient Landscape Worksheet which contains two sections regarding the landscape project being designed: a hydrozone information table, and a water budget calculation.

1. Hydrozone Information Table. A hydrozone information table should contain at least the following information:

- Hydrozone label—(zone or valve designations, or other designations corresponding to the landscape plan)
- Plant Water use Type(s)—High, Medium, or Low. Group Special Landscape Areas (SLAs)
- Irrigation Method—(Micro-spray, spray, rotor, bubbler, drip, etc.)
- Plant Factor. The plant factor used shall be from WUCOLS. The plant factor ranges from 0 to 0.3 for low water use plants, from 0.4 to 0.6 for moderate water use plants, and from 0.7 to 1.0 for high water use plants.
- Hydrozone Area in square feet
- Plant Factor multiplied by the Hydrozone Area

See the example table below:

Hydrozone Plant Factor (PF)	Plant Water Use Type(s) HydrozoneArea (HA)(square feet)	Irrigation Method PF x HA(square feet)
1	High Spray	0.8 7,000
5,600		
2	High Rotor	0.7 9,000
6,300		
3	Medium Spray	0.5 15,000
7,500		
4	Low Drip	0.3 7,000
2,100		
5	Low Low Flow	0.2 10,000
2,000		
		Sum
23,500		
6	SLA Rotor	1.0 2,000
2,000		

2. Water Budget Calculation. A water budget calculation for a landscape project compares the Maximum Applied Water Allowance (MAWA), to the Estimated Total Water Use (ETWU). For all landscape projects under this ordinance, ETWU shall be less than MAWA.

For both the ETWU and MAWA calculations, project applicants shall use the Reference Evapotranspiration (ETo) value as determined by the City of West Sacramento Parks Department.

- Water budget calculations shall adhere to the following requirements:
 - The plant factor used shall be from WUCOLS. The plant factor ranges from 0 to 0.3 for low water use plants, from 0.4 to 0.6 for moderate water use plants, and from 0.7 to 1.0 for high water use plants.
 - All water features shall be included in the high water use hydrozone and temporarily irrigated areas shall be included in the low water use hydrozone.
 - All Special Landscape Areas shall be identified and their water use calculated as described below.
 - ETAF for Special Landscape Areas shall not exceed 1.0.
- MAWA Calculation. The Maximum Applied Water Allowance shall include an adjustment for Effective Precipitation (Eppt), and be calculated using the equation:

$$\text{MAWA (gallons/yr)} = (\text{ETo} - \text{Eppt}) (0.62) [(0.7)(\text{LA}) + (0.3)(\text{SLA})]$$

Where:

per year)	ETo	= Reference Evapotranspiration Rate (inches
	Eppt	= 25% of the average rainfall (inches per year)
	0.62	= Conversion factor (to gallons)
	0.7	= ET Adjustment Factor (ETAF)
	LA	= Landscape Area including SLA (square feet)
	0.3	= Additional Water Allowance for SLA
	SLA	= Special Landscape Area (square feet)

Continued on page 7

c. ETWU Calculation. The Estimated Total Water Use shall be calculated using the equation:

$$\text{ETWU (gallons/yr)} = (\text{ETo} - \text{Eppt}) (0.62) [((\text{PF})(\text{HA})/\text{IE}) + \text{SLA}]$$

Where:

ETo	= Reference Evapotranspiration (inches per year)
Eppt	= 25% of the average rainfall (inches per year)
0.62	= Conversion Factor
PF	= Plant Factor from WUCOLS (see Section 13.04.1110)
HA	= Hydrozone Area (square feet)
IE	= Irrigation Efficiency (minimum 0.71)
SLA	= Special Landscape Area (square feet)

D. Soil Analysis/Report. In order to reduce runoff and encourage healthy plant growth, a soil analysis and report shall be completed by the project applicant, or his/her designee, as follows:

1. Submit soil samples to a laboratory for analysis and recommendations.
- a. Soil sampling shall be conducted in accordance with laboratory protocol, including protocols regarding adequate sampling depth for the intended plants.
- b. The soil analysis may include:
 1. soil texture;
 2. infiltration rate determined by laboratory test or soil texture infiltration rate table;
 3. pH;
 4. total soluble salts;
 5. sodium;
 6. percent organic matter; and
 7. recommendations.
2. The project applicant, or his/her designee, shall comply with one of the following:
 - a. If significant mass grading is not planned, the soil analysis/report shall be submitted to the City of West Sacramento as part of the Landscape Documentation Package; or
 - b. If significant mass grading is planned, the soil analysis/report shall be submitted to the City of West Sacramento as part of the Certificate of Completion.
3. The soil analysis/report shall be made available, in a timely manner, to the professionals preparing the landscape design plans and irrigation design plans to make any necessary adjustments to the design plans based on information in the soil analysis report.
4. The project applicant, or his/her designee, shall submit documentation verifying implementation of soil analysis/report recommendations to the City of West Sacramento with the Certificate of Completion.

E. Landscape Plan. For the efficient use of water, a landscape shall be carefully designed and planned for the intended function of the project. To that end, a landscape design plan meeting the following design criteria shall be submitted as part of the Landscape Documentation Package.

1. Plant Material

a. Any plant or tree conforming to the City's Landscape Development Guidelines and the City's Master Tree List may be selected for the landscape, providing the Estimated Total Water Use in the landscape area does not exceed the Maximum Applied Water Allowance. Plants within City rights-of-way or easements will be subject to review and approval by the City. To encourage the efficient use of water, the following is highly recommended:

1. protection and preservation of native species and natural vegetation
2. selection of plants based on disease and pest resistance
3. selection of water-conserving plant and turf species
4. selection of plants from local and regional landscape program plant lists
- b. Each hydrozone shall have plant materials with similar water use, with the exception of hydrozones with plants of mixed water use, as specified in Section 13.04.1120.F.2.d.
- c. Plants shall be selected and planted appropriately based upon their adaptability to the climatic, geologic, and topographical conditions of the project site. To encourage the efficient use of water, the following is highly recommended:
 1. Use the Sunset Western Climate Zone System which takes into account temperature, humidity, elevation, terrain, latitude, and varying degrees of continental and marine influence on local climate.
 2. Recognize the horticultural attributes of plants (i.e., mature plant size, invasive surface roots) to minimize damage to property or infrastructure [e.g., buildings, sidewalks, power lines].
 3. Consider the solar orientation for plant placement to maximize summer shade and winter solar gain.
 - d. Turf is not allowed on slopes greater than 1:4 where the toe of the slope is adjacent to an impermeable hardscape and where 1:4 means 1 foot of vertical elevation change for every 4 feet of horizontal length.
 - e. A landscape design plan for projects in fire-prone areas shall address fire safety and prevention. A defensible space or zone around a building or structure is required per Public Resources Code Section 4291(a) and (b). Avoid fire-prone plant materials and flammable mulches, especially in and around parking lots.
 - f. The use of invasive and/or noxious plant species is strongly discouraged. The use of invasive or noxious plant species within City right-of-way or easements will not be permitted.
 - g. The architectural guidelines of a common interest development, which include community apartment projects, condominiums, planned developments, and stock cooperatives, shall not prohibit or include conditions that have the effect of prohibiting the use of low-water use plants as a group.

2. Water Features

- a. Recirculating water systems shall be used for water features.
- b. Where available, recycled water shall be used as a source for decorative water features.
- c. Surface area of a water feature shall be included in the high water use hydrozone area of the water budget calculation.
- d. Pool and spa covers are highly recommended.

3. Mulch and Amendments

- a. A minimum three inch (33) layer of mulch shall be applied on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting groundcovers, or direct seeding applications where mulch is contraindicated.
- b. Stabilizing mulching products shall be used on slopes.
- c. The mulching portion of the seed/mulch slurry in hydro-seeded applications shall meet the mulching requirement.
- d. Soil amendments shall be incorporated according to recommendations of the soil report and what is appropriate for the plants selected (see Section 13.04.1120.D).
- e. The use of flammable mulches shall be avoided as noted in Section 13.04.1120.E.1.e.

4. Design Content.

The landscape design plan shall, at a minimum:

- a. delineate and label each hydrozone by number, letter, or other method;
- b. identify each hydrozone as low, moderate, high water, or mixed water use. Temporarily irrigated areas of the landscape shall be included in the low water use hydrozone for the water budget calculation;
- c. identify recreational areas;
- d. identify areas permanently and solely dedicated to edible plants;
- e. identify areas irrigated with recycled water;
- f. identify type of mulch and application depth;
- g. identify soil amendments, type, and quantity;
- h. identify type and surface area of water features;
- i. identify hardscapes (pervious and non-pervious);
- j. identify location and installation details of any applicable stormwater best management practices that encourage on-site retention and infiltration of stormwater. Stormwater best management practices are encouraged in the landscape design plan and examples include, but are not limited to:
 1. infiltration beds, swales, and basins that allow water to collect and soak into the ground;
 2. constructed wetlands and retention ponds that retain water, handle excess flow, and filter pollutants; and
 3. pervious or porous surfaces (e.g., permeable pavers or blocks, pervious or porous concrete, etc.) that minimize runoff.
- k. identify any applicable rain harvesting or catchment technologies (e.g., rain gardens, cisterns, etc.);
- l. contain the following statement: "I have complied with the criteria of the ordinance and applied them for the efficient use of water in the landscape design plan"; and
- m. bear the signature of a licensed landscape architect, licensed landscape contractor, or any other person authorized to design a landscape. (See Sections 5500.1, 5615, 5641, 5641.1, 5641.2, 5641.3, 5641.4, 5641.5, 5641.6, 6701, 7027.5 of the Business and Professions Code, Section 832.27 of Title 16 of the California Code of Regulations, and Section 6721 of the Food and Agriculture Code.)

F. Irrigation Plan.

For the efficient use of water, an irrigation system shall meet all the requirements listed in this section and the manufacturers' recommendations. The irrigation system and its related components shall be planned and designed to allow for proper installation, management, and maintenance.

An irrigation design plan meeting the following design criteria shall be submitted as part of the Landscape Documentation Package.

1. System

- a. Dedicated landscape water meters are highly recommended on landscape areas smaller than 5,000 square feet to facilitate water management.
- b. Automatic irrigation controllers utilizing either evapotranspiration, soil moisture sensor data, or other such self-adjusting controllers, shall be required for irrigation scheduling in all irrigation systems.
- c. The irrigation system shall be designed to ensure that the dynamic pressure at each emission device is within the manufacturer's recommended pressure range for optimal performance.
 1. If the static pressure is above or below the required dynamic pressure of the irrigation system, pressure-regulating devices such as inline pressure regulators, booster pumps, or other devices shall be installed to meet the required dynamic pressure of the irrigation system.
2. Static water pressure, dynamic or operating pressure and flow reading of the water supply shall be measured at the point of connection. These pressure and flow measurements shall be conducted at the design stage. If the measurements are not available at the design stage, the measurements shall be conducted at installation.
- d. Rain sensors, either integral or auxiliary, that suspend or alter irrigation operation during unfavorable weather conditions shall be required on all irrigation systems, as appropriate for local climatic conditions. Irrigation should be avoided during windy or freezing weather or during rain.
- e. Manual shut-off valves (such as a gate valve, ball valve, or butterfly valve) shall be required, as close as possible to the point of connection of the water supply, to minimize water loss in case of an emergency (such as a main line break) or routine repair.
- f. Backflow prevention devices shall be required to protect the water supply from contamination by the irrigation system. For additional backflow prevention requirements, the project applicant shall refer to the City's Municipal Code, Section 13.04 Water Service System, Title XI Protection of Drinking Water.
- g. High flow sensors that detect and report high flow conditions created by system damage or malfunction are recommended.
- h. The irrigation system shall be designed to prevent runoff, low head drainage, overspray, or other similar conditions where irrigation water flows onto non-targeted areas, such as adjacent property, non-irrigated areas, hardscapes, roadways, or structures.
- i. Relevant information from the Soil Analysis Report, such as soil type and infiltration rate, shall be utilized when designing irrigation systems.
- j. The design of the irrigation system shall conform to the hydrozones of the landscape design plan.
- k. The irrigation system must be designed and installed to meet, at a minimum, the irrigation efficiency criteria as described in Section 13.04.1120.C regarding the Maximum Applied Water Allowance.
- l. The project applicant is encouraged to inquire with the City about peak water operating demands (on the water supply system) or water restrictions that may impact the effectiveness of the irrigation system.

m. In mulched planting areas, the use of low volume irrigation is recommended to maximize water infiltration into the root zone.

n. Sprinkler heads and other emission devices shall have matched precipitation rates, unless otherwise directed by the manufacturer's recommendations.

o. Head to head coverage is recommended. However, sprinkler spacing shall be designed to achieve the highest possible distribution uniformity using the manufacturer's recommendations.

p. Swing joints or other riser-protection components are required on all risers subject to damage that are adjacent to high traffic areas.

q. Check valves or anti-drain valves are required for all irrigation systems.

r. Narrow or irregularly shaped areas, including turf, less than eight (8) feet in width in any direction shall be irrigated with subsurface irrigation or low volume irrigation system. Such areas that fall within City rights-of-way or easements shall utilize low volume irrigation, specifically multi-stream, multi-trajectory rotator sprinklers; subsurface irrigation in these areas will be prohibited.

s. Overhead irrigation shall not be permitted within 24 inches of any non-permeable surface. Allowable irrigation within the setback from non-permeable surfaces may include drip, drip line, or other low flow technology. The setback area may be planted or unplanted. The surfacing of the setback may be mulch, gravel, or other porous material. These restrictions may be modified if:

1. the landscape area is adjacent to permeable surfacing and no runoff occurs; or
2. the adjacent non-permeable surfaces are designed and constructed to drain entirely to landscaping; or
3. the irrigation designer specifies an alternative design or technology (including multi-stream, multi-trajectory rotator sprinklers), as part of the Landscape Documentation Package and clearly demonstrates strict adherence to irrigation system design criteria in Section 13.04.1120.F.1.h. Prevention of overspray and runoff must be confirmed during the irrigation audit.
- t. Slopes greater than 1:4 shall not be irrigated with an irrigation system with a precipitation rate exceeding 0.75 inches per hour. This restriction may be modified if the landscape designer specifies an alternative design or technology, as part of the Landscape Documentation Package, and clearly demonstrates no runoff or erosion will occur. Prevention of runoff and erosion must be confirmed during the irrigation audit.

2. Hydrozones

- a. Each valve shall irrigate a hydrozone with similar site, slope, sun exposure, soil conditions, and plant materials with similar water use.
- b. Sprinkler heads and other emission devices shall be selected based on what is appropriate for the plant type within that hydrozone.
- c. Where feasible, trees shall be placed on separate valves from shrubs, groundcovers, and turf.
- d. Individual hydrozones that mix plants of moderate and low water use, or moderate and high water use, may be allowed if:
 1. plant factor calculation is based on the proportions of the respective plant water uses and their plant factor; or
 2. the plant factor of the higher water using plant is used for calculations.
- e. Individual hydrozones that mix high and low water use plants shall not be permitted.
- f. On the landscape design plan and irrigation design plan, hydrozone areas shall be designated by number, letter, or other designation. On the irrigation design plan, designate the areas irrigated by each valve, and assign a number to each valve. Use this valve number in the Hydrozone Information Table (see Appendix B Section A). This table can also assist with the irrigation audit and programming the controller.

3. Design Content.

The irrigation design plan, at a minimum, shall contain:

- a. location and size of separate water meters for landscape—delineate whether the landscape water supply is connected to, or separate from the domestic supply;
- b. location, type and size of all components of the irrigation system, including controllers, main and lateral lines, valves, sprinkler heads, moisture sensing devices, rain switches, quick couplers, pressure regulators, and backflow prevention devices;
- c. static water pressure at the point of connection to the public water supply;
- d. flow rate (gallons per minute), application rate (inches per hour), and design operating pressure (pressure per square inch) for each station;
- e. recycled water irrigation systems as specified in Section 13.04.1150;
- f. the following statement: "I have complied with the criteria of the City of West Sacramento's Water Efficient Landscape Ordinance and applied them accordingly for the efficient use of water in this irrigation design plan"; and
- g. the signature of a licensed landscape architect, certified irrigation designer, licensed landscape

contractor, or any other person authorized to design an irrigation system. (See Sections 5500.1, 5615, 5641, 5641.1, 5641.2, 5641.3, 5641.4, 5641.5, 5641.6, 6701, 7027.5 of the Business and Professions Code, Section 832.27 of Title 16 of the California Code of Regulations, and Section 6721 of the Food and Agriculture Code.)

G. Grading Plan.

For the efficient use of water, grading of a project site shall be designed to minimize soil erosion, runoff, and water waste. A grading plan shall be submitted as part of the Landscape Documentation Package. A comprehensive grading plan prepared by a civil engineer for other local agency permits satisfies this requirement.

1. The project applicant shall submit a landscape grading plan that indicates finished configurations and elevations of the landscape area including:

- | | |
|----|--|
| a. | height of |
| b. | graded slopes |
| c. | drainage patterns |
| d. | pad elevations |
| e. | finish grade |
| f. | stormwater retention improvements, if applicable |

2. To prevent excessive erosion and runoff, it is highly recommended that project applicants:

- a. grade so that all irrigation and normal rainfall remains within property lines and does not drain onto non-permeable hardscapes
- b. avoid disruption of natural drainage patterns and undisturbed soil
- c. avoid soil compaction in landscape areas
3. The grading design plan shall contain the following statement: "I have complied with the criteria of the City of West Sacramento's Water Efficient Landscaping Ordinance and applied them accordingly for the efficient use of water in the grading plan" and shall bear the signature of a licensed professional as authorized by law.

13.04.1130 Certificate of Completion.

A. General. The Certificate of Completion shall include the following six (6) elements:

1. project information sheet that contains:
 - a. date
 - b. project name
 - c. project applicant name, telephone, and mailing address
 - d. project address and location
 - e. property owner name, telephone, and mailing address
2. mylar and digital "as-built" record drawings in a format acceptable to the City shall be included with the Certificate of Completion unless this requirement is waived in writing by the City.
3. certification by either the signer of the landscape plan, the signer of the irrigation plan, or the licensed landscape contractor that the landscape project has been installed per the approved Landscape Documentation Package;
4. irrigation scheduling parameters used to set the controller (see Section 13.04.1130.B)
5. landscape and irrigation maintenance schedule (see Section 13.04.1130.C)
6. irrigation audit report (see Section 13.04.1130.D)
7. soil analysis/report, if not submitted with the Landscape Documentation Package, and documentation verifying implementation of soil report recommendations (see Section 13.04.1120.D)

The project applicant shall submit the signed Certificate of Completion to the City of West Sacramento for review, and ensure that copies of the approved Certificate of Completion are submitted to the property owner or his or her designee.

Upon receipt of the signed Certificate of Completion from the project applicant, the City of West Sacramento shall approve or deny the Certificate of Completion. If the Certificate of Completion is denied, the City of West Sacramento shall provide information to the project applicant regarding reapplication, appeal, or other assistance.

B. Irrigation Scheduling.

For the efficient use of water, all irrigation schedules shall be developed, managed, and evaluated to utilize the minimum amount of water required to maintain plant health. Irrigation schedules shall meet the following criteria:

1. Irrigation scheduling shall be regulated by automatic irrigation controllers.
2. Overhead irrigation shall be scheduled as defined by the City's Urban Water Management Plan, unless weather conditions prevent it. Operation of the irrigation system outside the normal watering window is allowed for auditing and system maintenance.
3. For implementation of the irrigation schedule, particular attention must be paid to irrigation run times, emission device, flow rate, and current reference evapotranspiration, so that applied water meets the Estimated Total Water Use. Total annual applied water shall be less than or equal to Maximum Applied Water Allowance (MAWA). Actual irrigation schedules shall be regulated by automatic irrigation controllers

using current reference evapotranspiration data (e.g., CIMIS) or soil moisture sensor data.

4. Parameters used to set the automatic controller shall be developed and submitted for each of the following:

- | | |
|----|---|
| a. | the plant establishment period |
| b. | the established landscape |
| c. | temporarily irrigated areas |
| d. | Each irrigation schedule shall consider for each station all of the following that apply: <ol style="list-style-type: none"> a. irrigation interval (days between irrigation) b. irrigation run times (hours or minutes per irrigation event to avoid runoff) c. number of cycle starts required for each irrigation event to avoid runoff d. amount of applied water scheduled to be applied on a monthly basis e. application rate setting f. root depth setting g. plant type setting h. soil type i. slope factor setting j. shade factor setting k. irrigation uniformity or efficiency setting |

C. Landscape and Irrigation Maintenance Schedule.

Landscape schedules shall be maintained to ensure water use efficiency. A regular maintenance schedule shall be submitted with the Certificate of Completion.

1. A regular maintenance schedule shall include, but not be limited to:

- | | |
|----|---|
| a. | routine inspection |
| b. | adjustment and repair of the irrigation system and its components |
| c. | aerating and dethatching turf areas |
| d. | replenishing mulch |
| e. | fertilizing |
| f. | pruning |
| g. | weeding in all landscape areas |
| h. | removing obstructions to emission devices |

Operation of the irrigation system outside the normal watering window is allowed for auditing and system maintenance.

Repair of all irrigation equipment shall be done with the originally installed components or their equivalents.

Project applicants are encouraged to implement sustainable or environmentally-friendly practices for overall landscape maintenance.

D. Irrigation Audit, Irrigation Survey, and Irrigation Water Use Analysis.

1. For new construction and rehabilitated landscape projects installed after January 1, 2010, as described in Section 13.04.1100:

- a. the project applicant shall submit an irrigation audit report with the Certificate of Completion to the City of West Sacramento that may include, but is not limited to:
 1. inspection,
 2. system tune-up,
 3. system test with distribution uniformity, reporting overspray or run off that causes overland flow, and
 4. preparation of an irrigation schedule;
- b. the City may administer programs that include, but are not limited to, irrigation water use analysis, irrigation audits, and irrigation surveys for compliance with the Maximum Applied Water Allowance.
- c. All landscape irrigation audits shall be conducted by a certified landscape irrigation auditor.

13.04.1140 Irrigation Efficiency.

For the purpose of determining Maximum Applied Water Allowance, the average irrigation efficiency is assumed to be 0.71. Irrigation systems shall be designed, maintained, and managed to meet or exceed this average.

13.04.1150 Recycled Water.

The installation of recycled water irrigation systems shall allow for the current and future use of recycled water, unless a written exemption has been granted as described below.

Irrigation systems and decorative water features shall use recycled water unless a written exemption has been granted by the City of West Sacramento stating that recycled water meeting all public health codes and standards is not available and will not be available for the foreseeable future.

All recycled water irrigation systems shall be designed and operated in accordance with all applicable local and State laws.

For public projects, irrigated areas within the City rights-of-way and easements, and any other cases the City deems appropriate, the City may require the use of purple irrigation piping to signify recycled water usage, although recycled water may not be available at the time. In these cases, above-ground notifications regarding purple piping (such as purple valve boxes, tags, and signage) need not be installed until recycled water is actually run through the system.

Landscape using recycled water are considered Special Landscape Areas. The ET Adjustment Factor (ETAF)

Continued on page 8

(FROM PAGE 7)
for Special Landscape Areas shall not exceed 1.0.

13.04.1160 Stormwater Management.

Stormwater management practices minimize runoff and increase infiltration which recharges groundwater and improves water quality. Implementing stormwater best management practices into the landscape and grading plans to minimize runoff and to increase on-site retention and infiltration are encouraged.

Applicants shall refer to the City's Municipal Code, Section 13.10 Urban Stormwater Quality Management and Discharge Control, for information on the City's stormwater management requirements.

Rain gardens, cisterns, and other landscapes features and practices that increase rainwater capture and create opportunities for infiltration and/or onsite storage are recommended.

13.04.1170 Public Education.

Education is a critical component to promote the efficient use of water in landscapes. The use of appropriate principles of design, installation, management and maintenance that save water is encouraged in the community.

The City of West Sacramento will provide information to property owners and managers regarding the design, installation, management, and maintenance of water efficient landscapes via the City's website, occasional neighborhood meetings, and other formats as the City deems appropriate.

A. Model Homes.
All model homes that are landscaped shall use signs and written information to demonstrate the principles of water efficient landscapes described in this ordinance.

Signs shall be used to identify the model as an example of a water efficient landscape featuring elements such as hydrozones, irrigation equipment, and others that contribute to the overall water efficient theme.

Information shall be provided about designing, installing, managing, and maintaining water efficient landscapes.

13.04.1180 Irrigation Audit, Irrigation Survey, and Irrigation Water Use Analysis.

This section shall apply to all existing landscapes that were installed before January 1, 2010 and are over one acre in size.

The Maximum Applied Water Allowance for existing landscapes shall be calculated as:

MAWA = (ET_o)(0.62)(0.8)(LA).

A. Existing landscapes with a water meter

In order to evaluate water use and provide recommendations as necessary to reduce landscape water use to a level that does not exceed the Maximum Applied Water Allowance for existing landscapes, the City of West Sacramento may administer programs that include, but need not be limited to:

1. irrigation water use analyses
2. irrigation surveys
3. irrigation audits

B. Existing landscapes without a water meter

In order to evaluate water use and prevent and minimize water waste, the City of West Sacramento may administer programs that include, but need not be limited to:

1. irrigation surveys
2. irrigation audits

All landscape irrigation audits shall be conducted by a certified landscape irrigation auditor.

13.04.1190 Water Waste Prevention.

(a) No person shall cause or permit any water furnished to the person's property by the City to run to waste due to inefficient landscape irrigation, runoff due to low head drainage, overspray, or other similar conditions where water flows onto adjacent property, non-irrigated areas, walks, roadways, parking lots, or structures.

(b) Restrictions regarding overspray and runoff may be modified if:

- (1) the landscape area is adjacent to permeable surfacing and no runoff occurs; or
- (2) the adjacent non-permeable surfaces are designed and constructed to drain entirely to landscaping.

13.04.1200 Penalties.
The requirements of this Article may be enforced per the provisions of Articles IX and X of this Chapter; Chapter 1.12; and any other applicable method to the extent permitted by law.

Section 3. Severability. If any provision of this chapter, or the application of any such provision to any person or circumstance shall be held invalid, the remainder of this chapter, to the extent it can be given effect, or the application of those provisions to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby, and to this end the provisions of this chapter are severable.

Section 4. Effective Date and Publication. This ordinance shall take effect 30 days after its adoption, and pursuant to Resolution 9946 was published in summary format prior to adoption, and a summary will be published within 15 days after adoption in a paper of general circulation published and circulated within the City of West Sacramento.

PASSED AND ADOPTED by the City Council of the City of West Sacramento this 19th day of October, 2011, by the following vote:
AYES: Johannessen, Kristoff, Ledesma, Cabaldon
ABSENT: Villegas

/s/ Christopher L. Cabaldon, Mayor
/s/ Krissy Rankin, City Clerk
/s/ Jeffrey Mitchell, City Attorney

NOTICE OF TRUSTEE'S SALE T.S. No. 10-105802 Title Order No. 100704179 APN No. 046-615-018 YOU ARE IN DEFAULT UNDER A DEED OF TRUST DATED 10/23/2005. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER.
Notice is hereby given that RECONTRUST COMPANY, N.A., as duly appointed trustee pursuant to the Deed of Trust executed by GARY W. GREER, AN UNMARRIED MAN, dated 10/23/2005 and recorded 10/30/2005, as Instrument No. 2005-0064621-00, in Book, Page, of Official Records in the office of the Recorder of Yolo County, State of California, will sell on 11/09/2011 at 10:00AM, at the North entrance to the City Hall Building, 1110 West Capitol Avenue, West Sacramento, CA at public auction, to the highest bidder for cash or check as described below payable in full at time of sale, all right, title, and interest conveyed to and now held by it under said Deed of Trust, in the property situated in the City of West Sacramento, California, as more fully described in the above referenced Deed of Trust. The street address and other common designation, if any, of the real property described above is purported to be: 2487 TORINO STREET #3, WEST SACRAMENTO, CA 95691. The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein. The total amount of the unpaid balance with interest thereon of the obligation secured by the property to be sold plus reasonable estimated costs, expenses and advances at the time of the initial publication of the Notice of Sale is \$335,617.51. It is possible that at the time of sale the opening bid may be less than the total indebtedness due. In addition to cash, the Trustee will accept cashier's checks drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state. Said sale will be made, in an "AS IS" condition, but without covenant or warranty, express or implied, regarding title, possession or encumbrances, to satisfy the indebtedness secured by said Deed of Trust, advances thereon, with interest as provided, and the unpaid principal of the Note secured by said Deed of Trust with interest thereon as provided in said Note, plus fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust. DATED: 10/26/2011, as Instrument No. 2008-0002469 in book xxx, page xxx of Official Records in the office of the Recorder of YOLO County, California; Date of Sale: 11/14/2011 at 12:00 PM Place of Sale: At the rear (North) entrance to the City Hall Building, 1110 West Capitol Avenue, West Sacramento, CA 95691 Amount of unpaid balance and other charges: \$557,383.26 The purported property address is: 4355 GREGORY AVENUE WEST SACRAMENTO, CA 95691 Assessor's Parcel No. 046-230-011-000 The undersigned Trustee disclaims any liability for any incorrectness of the property address or other common

designation, if any, shown herein. If no street address or other common designation is shown, please refer to the referenced legal description for property location. In the event no common address or common designation of the property is provided herein, directions to the location of the property may be obtained within 10 days of the date of first publication of this Notice of Sale by sending a written request to Vericrest Financial, Inc. 16745 West Bernardo Drive Suite 300 San Diego CA 92127. Pursuant to California Civil Code Section 5102, the undersigned, on behalf of the beneficiary, loan servicer or authorized agent, declares as follows: [] The mortgage loan servicer has not obtained from the commissioner a final or temporary order of exemption pursuant to Section 2923.53 that is current and valid on the date the notice of sale is filed; [2] The timeframe for giving notice of sale specified in subdivision (a) of Section 2923.52 does apply to this notice of sale. If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Trustee, and the successful bidder shall have no further recourse. If the sale is set aside for any reason, the Purchaser at the sale shall be entitled only to a return of the deposit paid. The Purchaser shall have no further recourse against the Mortgagee, the Mortgagee's Attorney, Date: — Quality Loan Service Corp. 2141 5th Avenue San Diego, CA 92101 619-645-7711 For NON SALE information only Sale Line: 714-730-2727 or Login to: www.ipsasap.com Reinstatement Line: 619-645-7711 Quality Loan Service, Corp. If you have previously been discharged through bankruptcy, you may have been released of personal liability for this loan in which case this letter is intended to exercise the note holder's rights against the real property only. THIS NOTICE IS SENT FOR THE PURPOSE OF COLLECTING A DEBT. THIS FIRM IS ATTEMPTING TO COLLECT A DEBT. ANY INFORMATION OBTAINED BY OR FOR THIS FIRM OR THE CREDITOR WILL BE USED FOR THAT PURPOSE. As required by law, you are hereby notified that a negative credit report reflecting on your credit record may be submitted to a credit report agency if you fail to fulfill the terms of your credit obligations. GO FIGURE! by Linda Thistle

The idea of Go Figure is to arrive at the figures given at the bottom and right-hand columns of the diagram by following the arithmetic signs in the order they are given (that is, from left to right and top to bottom). Use only the numbers below the diagram to complete its blank squares and use each of the nine numbers only once.

DINING, TRAVEL & ENTERTAINMENT

COUCH THEATER DVD PREVIEWS BY SAM STRUCKHOFF

PICKS OF THE WEEK

"Crazy, Stupid Love" (R) -- This movie goes to show that with the right cast and a decent script, romantic comedies actually can have substance. Cal (Steve Carell) loses his cool when his wife (Julianne Moore) confesses that she has cheated on him. During their separation, Cal's ineptitude in the dating scene leads him to enlist the help of player and ace wingman, Jacob (Ryan Gosling).

Carell's comedy chops keep him loveable as always. Gosling and Emma Stone have crazy chemistry as two fast-rising stars in the Hollywood hierarchy. Even for those with low tolerance, "Crazy, Stupid Love" keeps the cinema cliches and staggering sweetness to a

Steve Carell, Julianne Moore

minimum -- for the most part. Overall, the movie fights the formula and comes out as a fresh, charming romantic flick.

"Water for Elephants" (PG-13) -- Circus life never looked so pretty. Or so melodramatic. Jacob (Robert

Pattinson) is a veterinary student who takes up with a traveling circus and immediately falls for the boss's wife (Reese Witherspoon). Of course, you'd want to rescue such a pretty girl if she were married to a villain worthy of portrayal by Christoph

Waltz (the menacing Hans Landa from "Inglorious Basterds").

With the exception of Waltz's bad guy, many of the performances feel a little stiff. The visuals paint a landscape of fantastical and bucolic life in a bygone era. This pretty scenery gives the

Fall Into Fall

Fruits and vegetables are easier to come by in the summer months than in the fall and winter. But to stay healthy and ward off diseases, it's important to include fruits and vegetables in your diet year-round. Here are some of the superstar fruits and vegetables of the fall and winter months. Sweet potatoes: They're loaded with beta-carotene (which the body makes into vitamin A), vitamin C, potassium, fiber, iron and

vitamin B-6. Sweet potatoes have more nutrients than regular white potatoes and can replace white potatoes in some recipes. Try them mashed, baked or as a dessert.

Apples: A traditional fall favorite, apples are easy to find in the supermarket, or you can pick your own at a nearby orchard. They are a quick, easy snack and can be paired with peanut butter or cheese for protein. Apples contain antioxidants, which may help protect against certain cancers and reduce

levels of LDL or bad cholesterol. Apples have vitamin C, vitamin K and fiber.

Pumpkin: Pumpkin is a great source of beta carotene, a powerful antioxidant that is good for the eyes. They also contain potassium. Canned or prepared fresh pumpkin can be made into a variety of soups, baked goods and desserts.

Broccoli: This is one vegetable that can be eaten raw or cooked, hot or cold, by itself or with other foods. Broccoli can help prevent cancer and heart disease, and boost the immune system. Nutrients in broccoli include vitamin C, vitamin A, vitamin B-6, iron, calcium, magnesium and vitamin E.

Green Beans: Green beans are high in vitamin K, which protects red blood cells and helps reduce the severity of asthma, osteoarthritis and rheumatoid arthritis. They also contain vitamin C, potassium, folate, iron and magnesium.

Spinach: Dark-green veggies contain a variety of nutrients a healthy body needs. Spinach is packed with vitamin A, vitamin K, iron, folate, magnesium, vitamin C, calcium, potassium, fiber and vitamin E. Spinach also has antioxidants and anti-cancer agents. Frozen or fresh spinach can be added to just about any meal.

Try this wonderful recipe for Pecan Pork Chops with Pumpkin Apple Butter using these superstar fall fruits and vegetables.

PECAN PORK CHOPS WITH PUMPKIN APPLE BUTTER

You can use canned sweet potatoes that have been drained and mashed instead of pumpkin, if desired. Any remaining Pumpkin Apple Butter mixture will keep in the refrigerator for up to two weeks, or you can freeze it in an airtight container for up to three months. It's also delicious on bread, pancakes or waffles. If you're pressed for time, a good quality, commercially made jar of pumpkin butter also will

work well.

- 1 (14-ounce) can pumpkin puree
- 1/2 cup apple juice
- 1/4 cup water
- 1/2 cup packed light brown sugar, stevia or agave syrup
- 1/8 teaspoon ground nutmeg or cloves
- 1 teaspoon ground ginger
- 1 teaspoon ground cinnamon
- 1 tablespoon poultry seasoning
- 1 teaspoon salt
- 1 teaspoon freshly ground black pepper
- 1/4 teaspoon cayenne pepper
- 1/2 cup pecans
- 1/2 cup Panko whole wheat bread crumbs
- 8 (1/4 inch thick) boneless pork chops
- 1 egg, beaten with 3 tablespoons of water
- 1/4 cup oil for frying

Whisk together pumpkin puree, apple juice, water, brown sugar, nutmeg, ginger and cinnamon in a saucepan until smooth. Bring to a boil, then reduce heat to medium-low and simmer until the mixture has reached the consistency of applesauce, about 10 minutes. Set aside.

Meanwhile, sprinkle pork chops with 1/2 tablespoon poultry seasoning, 1/2 teaspoon salt and pepper, and cayenne pepper. Pulse pecans, bread crumbs and remaining 1/2 tablespoon poultry seasoning and remaining 1/2 teaspoon salt and pepper in a food processor until the pecans are finely chopped. Pour into a shallow dish. Dip the pork chops in the egg, shake off excess. Press pork chops into the pecan mixture to coat on

both sides.

Heat oil in a skillet over medium-high heat. Add breaded pork chops and cook until golden brown on both sides and cooked through, about 3 to 4 minutes per side. Remove and drain on a paper towel-lined plate.

Place 2 tablespoons of pumpkin apple butter on each plate.

Place pork chops on the pumpkin butter. Serve with a side of steamed spinach, green beans or broccoli. Makes 8 pork chops.

INVITATION TO BID
Sealed proposals will be received at the office of the Public Works Department, 1110 West Capitol Avenue, 1st floor, West Sacramento, California 95691, until **Thursday, November 10th at 2:00 p.m. 2011** at which time and place they will be publicly opened for the construction of:
Port of West Sacramento Under Dock Lighting
Optional Site Walkthrough: Located at 2895 Industrial Blvd inside the Port of West Sacramento: A **Non-mandatory** pre-bid site walkthrough is scheduled on the following date:
Friday, October 28 at 11:00 a.m. Meeting location will be at the main gate of the Port of West Sacramento. The Port of West Sacramento requires that anyone entering the Port will have a Transportation Worker Identification Card or TWIC. All contractors entering for the pre-bid job walk will be escorted in by Port employees. A current California Drivers License or other government issued photo identification card is required for entry onto Port property. After award of the contract, the lowest responsible bidder will be required to obtain for all employees working on site the TWIC cards for entry onto the premises. The current cost for obtaining a TWIC card is per person \$132.00.
The site walkthrough is offered as an opportunity to view site conditions and meet Port Construction Management staff assigned to the project.
Project Funding Requirements:
This project is funded by California Emergency Management Agency (CAL-EMA) grant number 6173-0001. The Federal and State requirements set forth under the grant agreement are located in the back this specifications package for your reference.
Description of Work:
The work consists of furnishing all labor, equipment and materials for constructing the following Under Dock lighting Project. This project will entail working over or on the water to install a fully functioning Lighting system consisting of floodlights, motions sensors, circuit breakers and conduit. The lighting circuit will be connected to an existing 277/480V lighting panel and a 120V existing panel for the controls as per the plans. The contractor will be responsible for the work platform or float needed to access the area under the dock. The base project area will include docks 5,6,7 and 8 and the add alternate number one (1) will include docks 1 and 2.
In addition, the work includes the replacement of any permanent and temporary facilities removed or damaged as a consequence of the execution of this contract.
Completion of Work: All construction work shall be completed within (90) Ninety Calendar days from the date designated on the Notice to Proceed.
Obtaining Contract Documents: Electronic copies or hardcopies of the specifications, and subsequent addenda may be obtained from Dynamic Imaging Reprographic Service at the address noted below. Electronic copies of the specifications may be viewed on the website: www.disacramento.com. Bidders may then order the specifications. All reprographic costs for the specifications, tax and shipping shall be paid by the bidder and shall be non-refundable.
Dynamic Imaging

Account Representative: Chris Katz
E-Mail Address: printing@disacramento.com
Website: www.disacramento.com
To all Bidders, this is the link to view plans. www.disacramento.com
Select "Plan smart" on the top of the page. If you have an existing account go to step 4. If you are here for the first time begin at step 1.
#1 If this is the first time, select "click here to register"
#2 Fill in the appropriate information. Once complete, return to your email account.
#3 Follow the prompt at your email to confirm the account, this is for security. This activates the account.
#4 Go to/Return to the Plan smart log in page and enter your email and password.
#5 Next, Click "log-in"
#6 If the project is "public" it

will be listed below, proceed to step 10.
#7 If the bid is private, at "projects for bid", click on "add a private bid project"
#8 Next box, "bid number" = _____, then "password" = _____
#9 The job will pop up down below in your "new private bids"
#10 Once you click on the desired project below, a "project detail" screen appears
#11 In the left corner, "revision history", select the set you want to view. (There could be several lines, the bottom is most current)
The plans will be in view at this point. In the upper left corner is a black "disk" icon. Select it and a drop down of all pages appears. The right mouse button gives some additional options, zoom in etc. Make some notes for specific plans needed and close this window to place your order.
To place your order click "order" and fill in the rest of the form.
Please call 916-782-8070 in the Roseville office should there be any questions.
Bid package may be examined at the Public Works Department, 1110 West Capitol Avenue, 1st Floor, West Sacramento, California. From 8-12, 1-5 Monday through Friday. The bid and general requirements of the Port of West Sacramento Under Dock Lighting will be administered in accordance with the Project Specifications and plans. The Technical requirements of the contract will be administered in accordance with The City of West Sacramento Standard Specifications of 2002, the Caltrans standard building specifications, the 2010 CBC, 2010 Cal Green codes and the General Conditions contained in the contract documents.
Bid Guarantee:
Each proposal must be accompanied by cash, a cashier's check, certified check or bid bond, executed on the prescribed form, in an amount not less than ten (10) percent of the total bid price payable to the Port of West Sacramento. The Proposal Guarantee must be enclosed in the same envelope with the Bid.
A Bidder's Bond will be accepted only if it is made out on either the Bidder's Bond form enclosed in these documents or on a form which conforms to it.
The Attorney-in-Fact (resident agent) who executes the Bidder's Bond on behalf of the surety company must attach a copy of his Power of Attorney as evidence of his authority. A notary shall acknowledge the power as of the date of execution of the surety bond which it covers.
Construction License: The successful bidder must possess a current Class "C-10" Electrical Contractor's License issued by the State of California by the time of award of bid.
Award: The award shall be made to the lowest responsible bidder for the base bid whose proposal complies with the specified requirements and according to the "selection policy and criteria" outlined below. The award of Contract will be made by the Port Commission, and the Contractor shall execute the Contract within ten (10) days after he has received the Contract from the Port.
No bid may be withdrawn for a period of sixty (60) days after the opening of bids.
Relief of Bidder: Attention is directed to the provisions of Public Contracts Code Section 5101 and following, concerning relief of bidders and in particular to the requirements therein that if the bidder claims a mistake was made in his bid, the bidder shall give The Port written notice, within five (5) days after the opening of bids of the alleged mistake, specifying in the notice, in detail, how the mistake occurred.
Wage Rates: Bidders are hereby notified that the California Director of Industrial Relations has determined the general prevailing rate of wages for each craft, classification, or type of worker needed to execute the work.
It shall be mandatory for the Contractor and any subcontractor under him to pay not less than the said specified rates to laborers and workmen employed by them in the execution of the Contract.
Copies of the prevailing rate of per diem wages may be obtained from the Department of Industrial Relations, P.O. Box 420603, San Francisco, CA 94142-0603, Attn: Chief, Division of Labor Statistics and Research or at www.dir.ca.gov/DSL/PWD.
Bonds: The successful bidder will be required to furnish a payment bond in an amount equal to one hundred (100) percent of the Contract price, and a faithful performance

bond in an amount equal to one hundred (100) percent of the Contract price.
Addendum(s) Issuance Verification: Reproduction Services will notify all contractors either by fax, email or US mail, of the issuance of addendum(s), if any. However, it is the Contractor's sole responsibility to verify that he received all addendums, if any, and to include all issued addendums in his bid. Submittal of the bid without inclusion of all addendums will be considered non-responsive and the bid will be rejected.
Rejection of Bids:
a. Bids may be rejected if they show any alterations of form, incomplete bid, erasures, additions not called for, or irregularities of any kind.
b. The Port of West Sacramento reserves the right to waive any minor irregularity or clerical error and award the contract, provided the minor irregularity or clerical error does not materially affect the bidder's bid.
c. The Port of West Sacramento reserves the right to reject any and all bids.
Conditions of Bid:
A. The Port will not be liable for any cost incurred in the preparation of the bid.
B. The submission of a bid shall be prima facie evidence that the bidder has full knowledge of the scope, nature, quantity, and quality of work to be performed.
C. The Port may, at its sole discretion, not proceed with this bid process, or accept or reject any and all responses submitted to this bid. All submittals shall be the property of the Port of West Sacramento.
Ambiguities and Vagueness:
A. Call John Sneed, Construction Management Group, at (916) 617-4766 to clarify any ambiguity you might encounter while preparing your bid.
All questions shall be made in writing and submitted to: Johns@cityofwestsacramento.org.
B. The submission of a bid shall be prima facie evidence that the bidder has full knowledge and understanding of the scope, nature, quantity, and quality of work to be performed.
C. Claims for ambiguity or vagueness will not be considered.
Oct 26 Nov 2
(10/26-11/2)

INVITATION TO BID
Sealed proposals will be received at the office of the Director of Public Works, 1110 West Capitol Avenue, 1st Floor, West Sacramento, California until **10:00 a.m. local time on Tuesday, November 8, 2011** at which time and place they will be publicly opened and read aloud for the:
Raley's landing dock removal Project
The proposed work consists of the following:
Description of Work: The work consists of the removal and proper disposal of the Raley's Landing floating docks, gangways, levee ramp, and small shed and all related components necessary to complete the work as specified herein.
The project site is located at the River Walk Park near 651 Waterfront Place in West Sacramento.
Completion of Work: All work shall be completed within **ten (10) working days** from the date designated on the Notice to Proceed.
Obtaining Contract Documents: Bid documents may be purchased at:
Dynamic Imaging (PlanSmart)
620 Commerce Drive, Suite A
Roseville, CA 95678
Phone: (916) 782-8070
Web site: <http://www.disacramento.com/>
(Registration required)
Submission of Proposals: All proposals must be submitted not later than the time prescribed. The bidder is wholly responsible to see that his bid is submitted at the time and place designated for the opening of bids. Any bid received after the time and date specified shall not be considered. Any bid may be withdrawn prior to the scheduled time for opening bids.
Each bid must conform and be responsive to this notice and shall be made on the official proposal forms furnished with the contract documents.
The contractor shall be properly licensed in accordance with the laws of this state at the time the contract is awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law, including, but not limited to, any appropriate disciplinary action by the Contractors' State License Board. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.
Proposal Guarantee: Each proposal must be accompanied by cash, a cashier's check, certified check or bid bond, executed on the prescribed form, in an amount not less than ten (10) percent of the total bid price payable to the City of West Sacramento.
Bidders are hereby notified that in accordance with the provisions of Government Code Section 22300, securities may be substituted for any monies which the City may withhold pursuant to the terms of this Contract to ensure performance.
Construction License: The successful bidder must possess a current Class "A" General Engineering Contractor's License as issued by the State of California.
Award: The award shall be made to the lowest responsible bidder whose proposal complies with the specified requirements. The award of Contract will be made by the City Council and the Contractor shall execute the Contract within ten (10) days after he has received the Contract from the City.
The City reserves the right to waive any irregularity in the proposals. No bid may be withdrawn for a period of sixty (60) days after the opening of bids.
Rejection of Bids: The right is reserved to reject any and all bids. Any bid not conforming to the intent and purpose of the Contract documents may be rejected. The City reserves the right to make all awards in the best interest of the City.
Disqualification of Bidder: If there is a reason to believe that collusion exists among any bidders, none of the bids of the participants in such collusion will be considered and the City may likewise elect to reject all bids received.
Relief of Bidder: Attention is directed to the provisions of Public Contracts Code Section 5101 and following, concerning relief of bidders and in particular to the requirements therein that if the bidder claims a mistake was made in his bid, the bidder shall give the City written notice, within five (5) days after the opening of bids of the alleged mistake, specifying in the notice, in detail, how the mistake occurred.
Wage Rates: Bidders are hereby notified that the California Director of Industrial Relations has determined the general prevailing rate of

wages for each craft, classification, or type of worker needed to execute the work. It shall be mandatory for the Contractor and any subcontractor under him to pay not less than the said specified rates to laborers and workmen employed by them in the execution of the Contract.
Bonds: The successful bidder will be required to furnish a payment bond in an amount equal to one hundred (100) percent of the Contract price, and a faithful performance bond in an amount equal to one hundred (100) percent of the Contract price.

'Local Scene'

Concert, 'petting zoo'

The Camellia Symphony Orchestra will return to West Sacramento for its annual free family concert as well as a "Funshop" and "instrument petting zoo," meant to introduce kids to orchestral instruments including strings, woodwinds, brass and percussion. The interactive music activities begin at 1 p.m. and the one-hour family concert begins at 2 p.m. on Sunday, Nov. 20, at West Sacramento City Hall Galleria, 1110 West Capitol Avenue. For more info, visit www.camelliasymphony.org or call 929-6655.

Business survey

The City of West Sacramento is conducting a survey

on the feasibility of developing a "Business Resource & Innovation Center" in town. The survey asks businesspeople about the services they need to help grow their business. Participants will be entered into a drawing for one of six gift cards to Cap's Bar & Grill (inside renovated Capitol Bowl) or to the Eatery in Southport. There's a link to the survey on the calendar page at www.WestSac.com — look for the event stretched across the days Oct. 21-28. Survey ends 5 p.m., Oct. 28.

Start a book group

A workshop for those hoping to start a book group, or looking to find the right group, is planned for 7-8 p.m. on Wed.,

Nov. 9, in the Davis library branch at 315 E. 14th Street in Davis. Presented by the Yolo County Library. For information, call Joan Tuss at (530) 757-5588 or email joan.tuss@yolocounty.org.

Emergency skills

The City of West Sacramento is starting up a new round of training for those who want to know better how to help themselves, their families and their neighbors in the event of an emergency. Topics include Disaster Awareness, Light Search & Rescue, Terrorism and more. Citizens who pass the training course become CERTs (Community Emergency Response Team members) qualified to help the community in times of emergency. Training is free and is held on Tuesdays/Thursdays from 6-10 p.m. on various dates starting Nov. 8, with a final exercise and review on Sat., Nov. 19 from 8-5. Applications may be picked up at fire station 45, 2040 Lake Washington Blvd. in Southport. A link to more information is available on the calendar page at www.WestSac.com — look for the CERT registration event stretching from Oct. 21 to Nov. 7.

Craft fair

The Bryte Memorial Ladies Auxiliary of Veterans of Foreign Wars Post 9498 will hold its annual craft fair Sat., Nov. 5, from 9 a.m. to 3 p.m. Crafters needed. Call Sharon, (916) 371-0410. The event will be at the VFW Hall, 1708 Lisbon Ave.

Walk Clarksburg

Join the Sacramento Walking Sticks Volkssport Club in a walking tour of rural Clarksburg on Sat., Oct. 22. Register from 8:30 a.m. to noon at Delta High School, 52810 Netherlands Rd., and finish by 4 p.m. Free, but you can pay \$3 for "volkswalk" credit. There will be a 5k and a 10k route, featuring the town of Clarksburg and its rural surroundings, including optional wine tasting at the Old Sugar Mill.

Poker for the Chamber

There will be a Texas Hold 'Em Poker Tournament on Nov. 3 to benefit the West Sacramento Chamber of Commerce. Professional dealers & tables. 5 p.m. for appetizers, 6 p.m. for the tournament, at the Center for Spiritual Awareness, 1275 Starboard Drive. A \$50 buy-in includes food and two drink tickets. Visit www.westsacramento.com (calendar section) or call 371-7042. Register by Nov. 2.

Pumpkin Run

The West Sacramento Aquatics Foundation will bring back its "Pumpkin Run" fundraiser this year. There will be 5k and 10k runs/walks, and a 1 mile fun run for kids, with a course through Dave's Pumpkin Patch and along the river trail. The event is scheduled for 8 a.m. at Saturday, Oct. 29, at the pumpkin patch, 3010 Burrows Ave. Pre-register. For info, email AFWS@swimwestsac.com. Pre-register at www.eventbrite.com. In-person registration at the pumpkin patch, 2-5 p.m. on Oct. 28.

Pumpkin contest

Kids can decorate a pumpkin with a baseball theme, and bring it to Raley Field on Oct. 28 between 4-4:30 p.m. for a contest. Winning artist gets to spend Halloween trick-or-treating with Dinger, the River Cats mascot, in your neighborhood anywhere within 50 miles of the field. All participants will get a voucher good for a ticket to any April/May game.

New show

Coming from Oct. 28 through Dec. 11 at the Black Box Theater in the community center (1075 West Capitol Avenue): "Robin Hood in the Forest of Frogwarts," a "family show with possible mild subtle adult humor." The show plays Fridays & Saturdays at 8 p.m. and Sundays at 2 p.m. \$15 general admission, \$12 for student, SARTA members and seniors. For information

or tickets, visit www.citytheatre.net or call 558-2174. Tickets also available at the door.

Martial arts

New martial arts classes are starting up in the city recreation department. For example, there is "Intro to Martial Arts" on Tuesdays, from 7-8 p.m. at the community center (1075 West Capitol). The "Aiki Jujitsu" class will be

held Tuesdays 7-8 p.m. at the community center. For cost and other information, call 617-4620.

'State of the District'

The local Washington Unified School District plans to hold its first-ever 'State of the District' dinner and address on Nov. 1 at River City High School. Social hour begins at

"Cash for Comfort"

Prepare For Winter with 0% Financing* for Home Improvements

Are you tired of your leaky roof and drafty windows, but think you can't afford repairs? Think again. Stimulus funds and help are available through Cash for Comfort. Learn how you can repair your home, put cash back in your pocket and SAVE money. Plus, **NO appraisal, equity or credit score is required**, and grants and rebates are available.

These funds can be used for:

- ✓ New roofing
- ✓ New windows and doors
- ✓ New air conditioning and heating systems
- ✓ New insulation
- ✓ New water heaters
- ✓ Residential solar systems

Don't suffer through another winter — CALL TODAY!

(888) 316-5566 | www.CashforComfort.org

More Comfort. Less Energy.

Advertisement contains program highlights only. Full guidelines are available at www.chfloan.org.

The CHF Residential Energy Retrofit Program is sponsored by CRHMFA Homebuyers Fund (CHF), a California Joint Powers Authority. Funding for the Program is made possible through a grant award from the California Energy Commission.

*The following examples of 100% financing of qualified retrofit projects under the CHF Residential Energy Retrofit Program are based on a 15-year, fixed-rate CHF Loan. The monthly payment on a \$10,000, 15-year fixed-rate CHF Loan at 3.00% interest would be \$69.06 and the Annual Percentage Rate (APR) would be 3.403%. The payment on a \$10,000, 15-year fixed-rate CHF Loan at 0.00% interest would be \$55.56 and the APR would be 0.372%. The only fees used to calculate the APR are the escrow fee and the loan processing fee. Title policy and recording fees are not included in the APR calculation. The APR goes down as the amount borrowed goes up.

Advanced Comfort & Energy Systems, License Number CA162634
